|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Care Instructions | <p>Use cloth with any of the following in preferred order of use:</p> <ol style="list-style-type: none"><li>1: Clear warm water</li><li>2: Mild solution of liquid detergent and warm water</li><li>3: Isopropyl Alcohol (a.k.a. rubbing alcohol)</li></ol> <p>Remove any detergent with a clean, damp cloth. Gently pat dry.</p> <p>For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Rub gently. Rinse with a water dampened cloth to remove bleach concentration.</p> <p>Do not use solvent based or concentrated abrasive cleaning agents, lacquer thinners or nail polish remover as these may cause discolouration over a period of time.</p> <p>Always test in an inconspicuous area first.</p> <p>If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.</p> |
