Description	The Look of Fabric. The Sound of Zintra. Zintra Textile collection redefines PET acoustics with the rich texture of woven materials and bold, market-fresh colorways. Designed to rival traditional fabric solutions, this innovative collection introduces 19 striking Pantone-matched colourways, from quiet neutrals to vibrant juxtaposed tones. The palette has been curated to complement contemporary spaces while 4 distinct designs offer new opportunities for creative expression. A refined transparent print effect mimics the intricacy of real textile weaves, allowing the PET base to subtly shine through. The result is a fabric-like aesthetic with all the acoustic performance Zintra is known for—lightweight, low-VOC, and endlessly versatile. Among the standout designs is Herring—a sophisticated take on the classic herringbone pattern. With its rhythmic chevron detailing and tactile depth, Herring adds architectural structure and timeless elegance to any space. The intricate pattern interacts beautifully with light. Zintra Textile designs bring flexibility, offered in both portrait and landscape orientations. Perfect for workplace, education, retail, or hospitality settings—where sound control meets design intent. Textile-inspired. Performance-driven.
